

Core Values

PIONEERING SPIRIT

We understand what motivates people and drives markets. Acting with a view to the future, we work to identify viable ideas and market opportunities.

Deploying a spirit of innovation and the ability to realise new products, we implement the best solutions – for our customers and us.

INDIVIDUALITY

Working jointly with our customers, from the initial concept stage through to implementation, we develop one-of-a-kind, high-quality chocolate specialities.

We bring our knowledge and expertise to the table, overcome challenges and forge new paths. We create values that benefit all of the parties involved. Enduring relationships develop as a result of this.

SUSTAINABILITY

Ever since the company's founding, sustainability has remained a key corporate value.

Wherever possible, we purchase our raw materials directly in the countries of origin, from farmers and cooperatives with which we have had long-standing partnerships. The majority of our ingredients are organic and sourced with fair trade agreements in place.

We continually strive to improve our environmental performance and reduce our consumption of resources such as energy and water.

POSITIONING

As an imaginative Swiss chocolate producer that also excels in realising its concepts, Chocolat Stella Bernrain draws on a wealth of creative ideas to produce high-quality chocolate specialities that specifically meet the wishes of its customers.

The independent, internationally-focused, family-owned company produces products for private labels and the Bernrain and Stella brands, and supplies industrial manufacturers with the finest couverture chocolate and semi-finished products.

A culture of innovation dating from 1928, knowledge of the world's markets allied with decades of experience in development and production enable Chocolat Stella Bernrain to identify ideas and market opportunities at an early stage and then also translate these into products.

Sustainability plays a central role, both in the purchase of raw materials as well as in production. Chocolat Stella Bernrain manufactures exclusively in Switzerland.
