Crunchy Oat

Vegan and lactose-free

We warmly welcome the newest member of the Vegan Range which was created based on whole oat flour (gluten-free). To create something special, we gave the bar an extra portion of crunch by adding cocoa granulate and caramel pieces.

A new definition of a healthy snack

The Oatmeal is finely ground and of course packed with fiber from whole grains. It is a special combination with sustainable Cocoa Mass, and finest Cane Sugar. Beside the great taste there is no other way then just feeling good while snacking.
